

GEN. 3 SIPPY BOTTLE SPOUT PRODUCT MANUAL

English

Product Name: Gen. 3 Sippy Bottle Spout

Materials: Food Grade Silicone, Stainless Steel

Product Description:

The Silicone Sippy Spout attachment is fully compatible with all Haakaa Gen. 3 Silicone Bottles, transforming them into the perfect sippy bottle! It's made with food grade silicone, making it safe to give to kids on the move without any risk of injury to delicate mouths.

It also comes with an attached automatic straw to let them drink at any angle while on the go. The straw is weighted at the bottom, keeping the open end submerged in liquid at all times - even when the bottle is tipped upside-down!

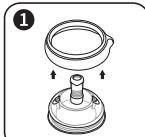

Features:

- Made with food grade silicone and stainless steel.
- Compatible with all Gen. 3 bottles.
- Automatic straw lets your child drink at any angle.
- Safe in sterilisers and boiling water.
- BPA, PVC and phthalate-free.

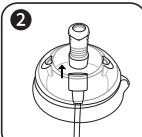

Cleaning and Care:

Wash before and after each use. Although dishwasher safe, we recommend hand washing in warm soapy water and rinsing and drying thoroughly. Do not use any bleach-based cleaners or tablets to sterilise or clean your Haakaa products. This product can be sterilised with any steam sterilising system or by boiling in water for 2-3 minutes. Do not boil or microwave stainless steel parts.

Assembly Instructions

Push the sippy spout up through the bottom of the attachment ring and into place. Ensure the bottom rim of the sippy spout attachment is laying flat inside the ring.

Attach the automatic straw to the base of the sippy spout.

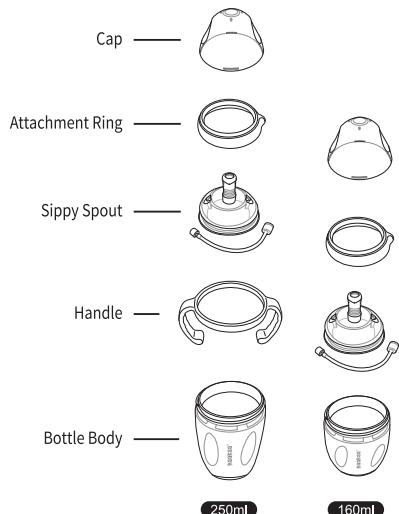

Fit the handle onto the bottle, then screw the attachment ring on.

Caution:

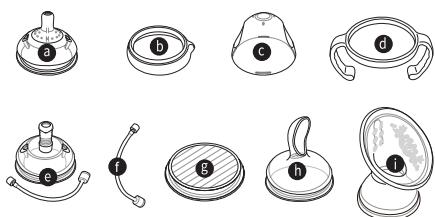

- Check product condition regularly. Replace if this product shows any signs of damage.
- Do not store near any sharp objects.
- Only soft bristle brushes or soft sponges should be used to clean this product. Hard scourers may scratch the surface.
- This product is not a toy. Do not use this product for anything other than its intended use.
- Store product in a cool dry place and avoid direct sunlight.
- Adult supervision is required.
