SILICONE BOTTLE FEEDING SPOON HEAD PRODUCT MANUAL

English

Product Name: Silicone Bottle Feeding Spoon Head(Cross-cut)

Material: Medical Grade Silicone

Dimensions: 72 x 72 x 77mm

Colour: Clear

Recommended Age: 6m+

Product Description:

Help your little one continue their solids journey with our large Silicone Bottle Feeding Spoon Head! This attachment is compatible with our Gen. 3 Silicone Bottles, transforming them into the perfect bottle for feeding your little ones without the potential mess of moving food back and forth from the container to their mouths!

This spoon features a deeper head to contain more food when feeding your growing baby. It also has a variable flow cross-cut valve that helps you control the amount of food dispensed and allows thicker, chunkier solids to be passed through, such as porridge and rice, as your child progresses through different foods.

Features:

- Made of 100% medical grade silicone.
- Compatible with all Haakaa Gen. 3 Silicone Bottles.
- Soft and gentle on little mouths.
- Larger head allows more food to be dispensed.
- Raised bowl edges minimise accidental spills.
- Cross-cut valve allows thicker, chunkier solids to be dispensed.
- Easy-to-clean one-piece design.
- Safe in microwaves, boiling water and sterilisers.

Cleaning and Care:

Clean after each use. We strongly recommend cleaning and sterilising this product with any steam sterilising system or by boiling in water for 2-3 minutes. Do not use any bleach-based agents or sterilising tablets to clean this product. Do not use UV sterilisers to clean this product as it may impact the lifespan of your spoon head.

Caution:

Check product condition regularly. Replace if this product shows any signs of damage. Infants are to be supervised at all times while using this product. Do not use this product for anything other than its intended use. If food is stuck inside the bottle, gently squeeze the bottle and the neck of the spoon (where the valve is) at the same time to let the food out.
