Silicone Dustproof Cap - 42 x 42 x 40mm

**Contents:** 1/2 x Silicone Nipple(s)

1/2 x Silicone Dustproof Cap(s)

**Recommended Age:** 6m+

**Standard:** EN 14350

### Product Description:

Convert your Haakaa Silicone Storage Bag (130ml/260ml) into a squeezable on-the-go feeding pouch!

The Silicone Nipple easily slots into the neck of your Haakaa Silicone Storage Bag (130ml/260ml). You or your little one can easily squeeze the soft pouch, allowing its contents to flow into the nipple. When not in use, the cap fits securely over the top of the nipple to keep it clean.

Suitable for thinner liquids such as milk and water.

### Features:

- Made of non-toxic 100% food-grade silicone.
- These attachments are compatible with the Haakaa Silicone Milk Storage Bag (130ml/260ml) – converting it into a squeezable feeding pouch.
- Nipple has a cross-cut opening which allows your baby to feed at their own pace.
- Tab at the base of the nipple makes it easy to remove from the Silicone Bag.
- Double ring inside the nipple prevents milk from flowing too quickly.
- Dustproof cap keeps the nipple clean and free from dust particles between uses.
- Resistant to extreme temperatures – safe to freeze and heat.
- Easy-care - simply boil to sterilise.
- BPA, PVC and phthalate-free.

### Cleaning and Care:

Before first use, disassemble and clean the product before placing in boiling water for 5 mins to sterilise. Wash before and after each use. Although dishwasher safe, we recommend hand washing in warm soapy water, then rinsing and drying thoroughly. Only soft bristle brushes or soft sponges should be used to clean this product as hard scourers may scratch the surface. To sterilise, use a steam steriliser or boil in water for 2-3 minutes. Do not use any bleach-based cleaners or tablets to sterilise or clean your Haakaa products. Do not use UV sterilisers to clean this product as it may impact its lifespan. Store product in a cool dry place and avoid direct sunlight.

### Instructions:

1 Pour the milk into the bag.

2 Push the nipple into the neck of the Storage Bag.

3 Squeeze the bag to help milk flow into the nipple.

4 Place the cap over the nipple when not in use.

### Optional Interchangeable Attachments

Compatible with our range of Squeeze & Feed and Yummy Pouch attachments to grow with your child's needs (sold separately).

- a** Silicone Feeding Spoon Attachment
- b** Silicone Yummy Pouch Sippy Spout
- c** Squeeze & Feed Attachment Set

### Caution:

#### For your child's safety and health WARNING!

- Always use this product with adult supervision.
- Before each use, inspect the product. Throw away at the first sign of damage or weakness.
- Always check food temperature before feeding.
- Continuous and prolonged sucking of fluids may cause tooth decay.
- For your child's safety, never attach product to cords, ribbons, laces or loose parts of clothing, as it can become wrapped around their neck.
- Inspect the nipple before each use by gently pulling in all directions. Throw away at the first signs of damage or weakness.
- Do not leave nipple in direct sunlight or heat, or leave in sterilising solution for longer than recommended, as this may weaken the product.
- Do not store near any sharp objects.
- This product is not a toy. Do not use this product for anything other than its intended use.
- Keep out of reach of children and pets when not in use.
- Do not forcefully squeeze or shake the bag at any time, as this may cause contents to leak.
- Do not fill bag beyond top measurement mark.

**Please note:** This product is an attachment for our Silicone Storage Bag (130ml/260ml), and will not work by itself.
