

**Product Name:** Gen. 3 Glass Storage Container**Materials:** Container - Borosilicate Glass

Sealing Disk - Medical Grade Silicone

Attachment Ring - PP

**Volume:** 120ml / 180ml**Colours:** Peach / Grey**Product Description:**

Haakaa's Gen. 3 Glass Storage Container has been designed to help you safely store your breast milk while preserving its beneficial properties for your little one. The container body is made of hardy borosilicate glass, making it temperature-resistant and easy to clean. It's also comfortable to hold, with an ergonomically tapered body.

The silicone sealing disk and attachment ring slot together to create a twist-tight and leakproof seal, keeping your liquid gold and any other food or liquids safe from accidental spills and airborne nasties.

The Gen. 3 Glass Storage Container is compatible with the Gen. 3 Anti-Colic Silicone Nipple and Sippy Spout attachments, transforming it into a glass baby bottle!

**Features:**

- Made with temperature-resistant borosilicate glass.
- Unique ergonomic design.
- Clearly marked measurements on side of container.
- Airtight and leakproof silicone sealing disk keeps your food and liquids fresh and safe from spills.
- Safe in freezers and boiling water.
- Multifunctional design, compatible with most Gen. 3 attachments.
- BPA, PVC and phthalate-free.

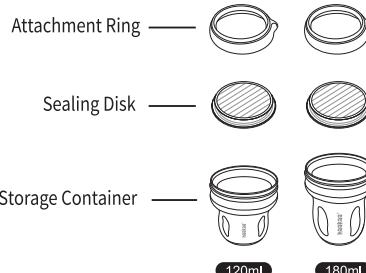

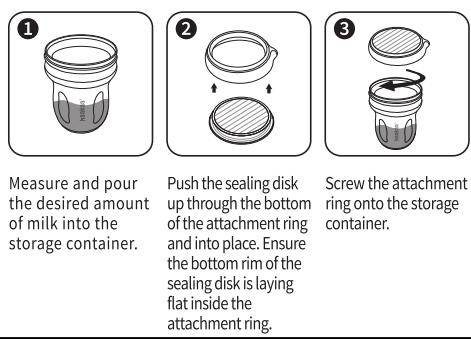

**Cleaning and Care:**

Wash before and after each use. Although dishwasher safe, we recommend hand washing in warm soapy water and rinsing and drying thoroughly. Do not use any bleach-based cleaners or tablets to sterilise or clean your Haakaa products. This container can be sterilised with any steam sterilising system or by boiling in water for 2-3 minutes.

**Note:** The measurements on the Gen. 3 Glass Storage Container are printed with food-grade ink. This ink may begin to come off over time if washed with chemical-based detergents. We recommend washing gently in warm water and only using detergents that have been specifically developed for cleaning infant feeding products. Then, sterilise as normal by boiling in water for 2-3 minutes or by using any steam-based sterilising system.

**Caution:**

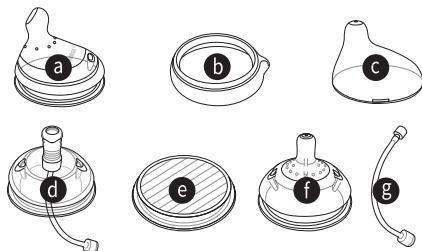

- Check product condition regularly. Replace if this product shows any signs of damage.
- Do not store near any sharp objects.
- Only soft bristle brushes or soft sponges should be used to clean this product. Hard scourers may scratch the surface.
- This product is not a toy. Do not use this product for anything other than its intended use.
- Store product in a cool, dry place and avoid direct sunlight.
- Adult supervision is required.

**Glass Storage Container Diagram****Assembly Instructions**

Measure and pour the desired amount of milk into the storage container.

Push the sealing disk up through the bottom of the attachment ring and into place. Ensure the bottom rim of the sealing disk is laying flat inside the attachment ring.

Screw the attachment ring onto the storage container.
