**Colour:** Spring Green

### Product Description:

Clean and care for your maternity and baby gear with Haakaa's 5-in-1 Cleaning Brush Set! The star of this set is the multipurpose detachable brush. With three different-sized heads and flexible bristles to provide effective 360° cleaning, all your items will be left fresh and ready for reuse. The bottle brush head bends up to 90° and the bristle pad is removable for extra hygienic convenience. Long, dense, and tough-yet-soft bristles compress to fit and thoroughly clean most containers, reaching even tight corners. The handle features a firm angled edge for easy removal of stubborn residues. The twisted nylon brush is ideal for reaching inner surfaces and gaps. Finally, the U-shaped brush features bristles on both inner surfaces to fit over container edges and grooves to clean stubborn nasties. Alongside this amazing brush are two silicone tube brushes for detailed cleaning of narrow items such as straws or colostrum collectors! Each brush features a hanging hook for convenient storage and helping with mould prevention.

### Features:

- This detachable 5-in-1 brush set includes a triple-head bottle brush plus two different-sized silicone tube brushes, designed for cleaning both large and small items.
- Efficiently cleans everything from baby and maternity gear to everyday household items!
- Flexible bristles effectively scrub hard-to-reach corners, providing a 360° clean without scratching surfaces.
- 90° bendable bottle brush with removable bristles compresses to fit and thoroughly clean most containers.
- The bottle brush head features tough TPE bristles that are gentle, long, and dense, providing excellent cleaning power.
- The handle features an angled edge for easy removal of stubborn residue.
- Twisted nylon brush is ideal for reaching inner surfaces and gaps.
- U-shaped brush features bristles on two surfaces to clean nasties from around narrow edges.
- Two different-sized silicone tube brushes for detailed cleaning of narrow items such as straws.
- Easy-grip handles that hang up for convenient storage and drying to help prevent mould.
- BPA, PVC and phthalate-free.

### Cleaning and Care:

To clean brushes, wash in warm, soapy water then rinse and dry thoroughly. To sterilise the 3-in-1 Cleaning Brush, disassemble and soak in a non-bleach-based sterilising solution, following manufacturer instructions. The removable bottle brush bristle pad and tube brushes **ONLY (NOT the 3-in-1 handle)** may be sterilised by boiling in water for 2-3 minutes. All other 3-in-1 Cleaning Brush components are not suitable for any heating method, including boiling water. **DO NOT** use microwave or steam sterilisers for any part of this set. Ensure brushes and brush parts are dried thoroughly in a well-ventilated area. Store in a cool, dry place and avoid direct sunlight.
