SILICONE DUMMY PRODUCT MANUAL

English

Product Name: Silicone Dummy**Material:** Food-Grade Silicone**Dimensions:** 46 x 58 x 69 mm**Colours:** Apricot/Amber**Recommended Age:** 3m+**Standard:** EN 1400

Product Description:

Soothe your little one with our Silicone Dummy! It is made from one complete piece of silicone that is soft, safe, and free of harsh chemicals. No more hard plastic parts that trap moisture and leave nasty rashes - our dummies are gentle on skin, gums and new teeth. If your child is teething, chuck our Silicone Dummy in the freezer to provide added cooling relief to those little aching gums!

Features:

- Made of soft and flexible 100% food-grade silicone that's soothing and gentle on little gums.
- Mimics the shape of a mother's nipple.
- U-shaped design and ventilation holes on each side promote natural breathing.
- Ergonomic shape that doesn't leave marks or a rash.
- Suitable for babies 3 months+.
- Safe in dishwashers, microwaves, fridges, freezers, boiling water and steam sterilisers.
- BPA, PVC and phthalate-free.

Cleaning and Care:

Before first use, place the dummy in boiling water for 5 mins, allow to cool, and squeeze out any trapped water from the dummy. This is to ensure hygiene. Clean before every use. Never dip the teat in sweet substances or medication as this can lead to tooth decay. The dummy should be replaced after 1-2 months of use, for safety and hygiene reasons. In the event that the dummy becomes lodged in the mouth, DO NOT PANIC; it cannot be swallowed and is designed to cope with such an event. Remove from the mouth with care, as gently as possible. This product can be sterilised with any steam sterilising system or by boiling in water for 2-3 minutes. Other common methods of heating, cleaning, storage and use not listed in this manual may damage the product. Please do not use bleach-based cleaners or tablets to clean this product. Only soft bristle brushes or soft sponges should be used to clean this product. Hard scourers may scratch the surface. Store product in a cool, dry place and avoid direct sunlight.

Caution:

For your child's safety and health

WARNING!

- ⊙ Inspect carefully before each use by pulling on the dummy in all directions. Throw away at the first signs of damage or weakness.
- ⊙ Only use dedicated dummy holders tested to EN 12586. For your child's safety, never attach product to cords, ribbons, laces or loose parts of clothing, as it can become wrapped around their neck.
- ⊙ Check product condition regularly - replace if this product shows any signs of damage.
- ⊙ Infants are to be supervised at all times.
- ⊙ Do not store near any sharp objects.
- ⊙ Keep out of reach of children and pets when not in use.
- ⊙ Please do not use this product for anything other than its intended use.
- ⊙ Sterilise after any illness.
- ⊙ Do not leave dummy in direct sunlight or heat, or leave in sterilising solution for longer than recommended, as this may weaken the product.
