### Product Description:

Help your little one build confidence and independence at mealtimes with Haakaa's Bendy Silicone Cutlery Set! These utensils are soft and flexible thanks to the thin iron rod core, which is surrounded by 100% food-grade silicone. This lets you bend them until they're the perfect angle for your little one as they learn to self-feed! Perfectly sized for little mouths, the utensils are designed to have soft, gentle edges to keep things safe for your child as they develop their fine motor skills. The handles also feature special grooves to stop the cutlery sliding into bowls! This set comes with a handy storage case to keep your cutlery hygienic - ideal for carrying in your baby bag.
